PERSONAL PROFILE

Senior Project Manager with over 17 years of end-to-end experience delivering large-scale, technology and transformation projects. I am skilled in Agile delivery, software development, and analysing workflows, gathering requirements, and improving business processes, as well as having a proven ability to manage global teams and align C-suite stakeholders. Alongside enterprise delivery, I explore how AI can improve workflow efficiency. Recent examples include developing a project time-tracking tool using an AI Agent that streamlined reporting and improved execution visibility.

PROFESSIONAL OVERVIEW

- End-to-end project management
- Business analysis and process optimisation
- Requirements gathering and gap analysis
- International project and programme delivery
- Cross-border team coordination and stakeholder Engagement
- Governance, risk and Compliance (FCA, EU grants, ERP, Reporting Platforms)
- Effective planning and RAID management
- Programme controls including: budgeting over £1m, Dependencies, Reporting, Work Packages

KEY ACHIEVEMENTS

- Built and scaled PMO and governance frameworks, ensuring risk, dependency, and reporting structures were transparent to stakeholders.
- Delivered multi-million-pound international software and data programmes across Europe, MENA, the US and South East Asia, managing cross-functional Agile teams and governance across multiple time zones.
- Coordinated hands-on delivery of software engineering projects, embedding Scrum practices that accelerated delivery speed and improved transparency for stakeholders.
- Developed governance and reporting frameworks, ensuring exceptional compliance and risk management
- Trusted by senior leadership to step into critical delivery roles, stabilising complex initiatives and driving execution where deadlines were at risk.

EMPLOYMENT HISTORY

Head of Projects & PMO Lead - Novocycle Technology (Engineering/Battery Recycling, Remote/Dubai, UAE)

Apr 2024 - Present

- Established a PMO to centralise communication, align projects, and manage multi-million Euro EU grant projects.
- Coordinated technical and non-technical delivery teams across Europe and the Middle East.
- Introduced structured project reporting and delivery tracking using Jira/Confluence, reducing reporting effort by 36% and improving stakeholder transparency.

Senior Technical Project Manager (Contract) - Caravan and Motorhome Club (Insurance, Remote/London, UK)

Oct 2022 - Nov 2023

- Redesigned a core insurance product, improving profitability
- Facilitated workshops to gather requirements and map workflows, identifying inefficiencies and delivering process improvements that drove margin gains.
- Introduced a vendor selection process and managed insurance underwriters.

Programme Manager (Contract) - Simply Business (Insurance, London, UK)

Aug 2022 - Mar 2023

- Delivered a £1.2m insurance product using microservices and APIs, and worked with product owners to refine backlog and translate business requirements into technical delivery, improving product adoption
- Managed FCA-regulated programme with multi-workstream Agile delivery (Operation Resilience + Consumer Duty).
- Introduced sprint cycles and reporting dashboards, improving progress tracking and visibility.
- Managed the delivery of the 10-year anniversary Hackathon and coached the winning hack to also win sponsorship to build the MVP.

Programme Manager & Digital Transformation Lead (Contract) – Mercer (Insurance, London, UK)

Oct 2021 - Jun 2022

- Directed multi-country rollouts for clients, including Amazon and Estée Lauder.
- Developed BA deliverables such as process maps and onboarding playbooks, ensuring clear requirements and smoother adoption across regions.
- Managed project plans, budgets and risk/dependency logs, ensuring delivery to regulatory deadlines.

Senior International Project Manager (Contract) - 6Connex (Events, Remote/US)

Jul 2020 – Mar 2022

- Simultaneously delivered global virtual platform programmes across Europe, the US, MENA and South East Asia.
- Coordinated Agile software teams across 6 time zones under high-pressure delivery schedules.
- Improved platform infrastructure stability, resulting in reduced downtime at major global events, such as graduations and large exhibitions.

Project Delivery Manager / Consultant (Contract) - Best Future Education Centre (Nigeria)

Mar 2020 - Dec 2020

- Led digital transformation during COVID-19, rolling out data systems and remote learning platforms.
- Delivered staff and student training to ensure business continuity.

Project Manager (Contract) - GSMA (Telecoms, London, UK)

Jan 2019 – Mar 2020

- Managed the creation and roll-out of the Energy Consumption Benchmark Tool in association with the UN's 2030 Sustainability Goal. This resulted in large mobile operators, such as Vodafone, Verizon, and China Telecom, achieving up to a 35% energy reduction.
- Engaged with regulators and executives to influence the adoption of new sustainability standards.

Project & Implementation Consultant – JLT Employee Benefits (Insurance & HR SaaS Tool, London, UK)

Jan 2017 – Jan 2019

- Directed implementation of SaaS-based benefits renewals platform for clients like Hitachi and AS Watson
- Improved project efficiency by 34% by automating a number of key tasks in the process.
- Coordinated cross-functional teams across IT, operations, and client services to ensure successful delivery to budget and schedule.

Senior Implementation Consultant – Dictate.IT (Healthcare, London, UK)

Sep 2014 – May 2016

- Implemented digital dictation systems across NHS Trusts, reducing costs and turnaround times.
- Delivered training and change management for clinical teams.

EARLY CAREER

Technical Project Manager - BSS Industrial (Engineering/Construction - London, UK)

Nov 2013 - Aug 2014

Project Engineer (Contract) - Alfa Laval (Engineering/Construction - London, UK)

Sep 2008 - Nov 2013

EDUCATION AND CERTIFICATIONS

Certificates: PRINCE 2, Agile, Waterfall, Scrum Master (PSM I and PSM II), Six Sigma

Master's Degree: Renewable Energy, Enterprise and Management (MSc) - Newcastle University

Bachelor's Degree: Chemical Engineering (BEng) - Aston University
