

MUJEEB LAWAL

Transformation Lead | Program Management, PMO Governance & Project Delivery

Mob: +44 (0) 7908 226 038 | London, UK | odmlawal@gmail.com | 17+ Years' Experience (British)
www.linkedin.com/in/mujeeb-lawal-experienced-project-manager/

EXECUTIVE PROFILE

Transformation Lead with 17 years of experience delivering global end-to-end projects, programs and PMO governance frameworks. Reduced manual reporting effort by 36% and improved delivery efficiency by 34% through process redesign and automation. Expert at scaling operations and providing delivery assurance while partnering with C-suite stakeholders to drive measurable business outcomes and operational maturity across complex, cross-functional environments.

PROFESSIONAL EXPERIENCE

AI Transformation & Product Lead (Freelance)

Nov 2025 - Present 2026

Building AI-enabled products focused on workflow automation, operational efficiency, and decision support across recruitment, productivity, verification, and business operations.

Key Impacts:

- Personal Portfolio - A full-stack portfolio and content platform with an AI Chatbot and CMS function.
- CV Analytics - AI-powered job application management platform that centralises CV data.
- CatchTheAI - Cross-platform AI verification platform focused on detecting AI-generated and deepfakes content.
- The1Thing - Minimal productivity platform designed to reduce decision fatigue and improve execution focus.

Head of Projects & PMO Lead - Novocycle Technology (Engineering)

Apr 2024 - Nov 2025

Managing a team of 6 and accountable for PMO governance and portfolio delivery of multi-million-euro EU-funded digital programs.

Key Impacts:

- Established a group-wide PMO to centralise governance, reporting, and delivery maturity across Europe and the Middle East.
- Reduced manual reporting effort by 36% and improved executive visibility by introducing AI-enabled reporting.
- Aligned engineering, commercial and research teams under a single delivery operating model to improve scalability.

Senior Technical Project Manager (Consultant/Contract) - CAMC (Insurance)

Oct 2022 - Nov 2023

Led the transformation of core insurance products to improve profitability and operational resilience.

Key Impacts:

- Directed 9 workstreams to deliver an end-to-end redesign of two insurance products, addressing margin erosion.
- Managed and optimised the vendor selection process and supplier management to ensure delivery assurance during commercial negotiations.
- Stabilised products and improved profitability through the delivery of operating improvements.

Program Manager (Consultant/Contract) - Simply Business (Insurance/Fintech)

Aug 2022 - Mar 2023

Accountable for the delivery of a £1.2m insurance product/project and the audit readiness of a new FCA (UK's Financial Conduct Authority) program.

Key Impacts:

- Managed a team of 6 to deliver a new digital insurance product using microservices and API-led architecture.
- Ensured full compliance and audit readiness by leading FCA Operational Resilience and Consumer Duty programs.
- Restored visibility across complex workstreams by implementing portfolio-level dashboards and resource planning governance.

Program Manager (Consultant/Contract) - Mercer/Marsh & McLennan (Insurance/HR SaaS)

Oct 2021 - Jun 2022

Directed global rollouts for enterprise clients, including Amazon and Estée Lauder, managing data migrations across platforms.

Key Impacts:

- Led concurrent platform migration and multi-country deployments with full ownership of the delivery process and budget.
- Created standardised onboarding playbooks to ensure consistent global adoption and scalability.

- Maintained strict regulatory compliance and dependency management across multiple jurisdictions.

Senior International Project Manager (Consultant/Contract) - 6Connex (Virtual Events SaaS) **Jul 2020 - Mar 2022**

Owned delivery of high-profile global virtual event programs during peak COVID demand.

Key Impacts:

- Increased delivery velocity by centralising the global Agile teams across 6 time zones during peak demand periods.
- Established an effective feedback loop with clients to reduce system downtime and improve architectural stability.
- Boosted delivery efficiency by 30% through the automation of manual project management processes.

Project Manager (Consultant/Contract) - GSMA (Telecoms)

Jan 2019 – Mar 2020

Managed a team of 2 to deliver a global sustainability and energy-efficiency program aligned to the UN 2030 Goals.

Key Impacts:

- Led development of the Energy Consumption Benchmark Tool, managing complex data flows and technical backlogs.
- Enabled global operators, including Vodafone, Verizon, E& (Etisalat), to achieve up to 35% energy reduction via the Future Network Program.
- Influenced industry-wide adoption by engaging regulators and C-suite leaders to drive strategic change.

Project & Implementation Consultant - JLT - (Insurance/HR SaaS)

Jan 2017 – Jan 2019

Directed enterprise SaaS implementations for multinational clients, often migrating employee data from one platform to another.

Key Impacts:

- Raised delivery efficiency by 34% by redesigning migration processes and automating technical workflows.
- Ensured on-time delivery of enterprise SaaS implementations by leading diverse cross-functional stakeholder groups.

Senior Implementation Consultant - Dictate.IT (Healthcare SaaS)

Sep 2014 – May 2016

Delivered digital transformation across public healthcares/NHS Trusts, replacing analogue workflows.

Key Impact:

- Reduced post-implementation queries by 28% by automating the training process for healthcare staff.

EARLY CAREER

Technical Project Manager - BSS Industrial (Engineering/Construction)

Nov 2013 - Aug 2014

Managed coordination of mechanical and plumbing systems supplied into commercial on-plan and off-plan construction buildings.

Project Engineer - Alfa Laval (Engineering/Construction)

Sep 2008 - Nov 2013

Delivered industrial engineering packages supporting fabrication, installation and commissioning activities.

KEY SKILLS & CORE COMPETENCIES

Program Management: Digital Strategy, Lean Portfolio Management (LPM), Benefits Realisation IT/OT Regulatory Environments, Portfolio Governance, Digital Transformation Roadmap, Google Cloud Platform (GCP NPV & IRR Financial Modelling).

PMO, Governance & Compliance: PMO design & setup, Portfolio governance, Executive dashboards, RAID management, Risk management, Audit readiness, Stage-gate governance, Translate business requirements into technical backlogs.

Project Delivery & Portfolio Management: Portfolio & program leadership, Enterprise roadmaps, Investment prioritisation, Benefits realisation, £5m+ budget ownership, Migration landscape analysis, Delivery maturity, Scalability.

Transformation & Change Leadership: Enterprise transformation, Operating model design, Business process optimisation, Organisational change, Agile at scale, Dependency Management, Supplier change.

Technology & AI Delivery: Software Implementation, SaaS & enterprise platforms, API-led architectures, SDLC leadership, AI-enabled reporting & workflow automation, Jira & Confluence, AWS, Microsoft Azure, Google Cloud Platform (GCP).

Web3, Fintech & Digital Assets: Blockchain, Distributed Ledger Technology (DLT), Cryptocurrency Markets (DeFi/NFTs), Web3 Community Strategy.

EDUCATION AND CREDENTIALS

Certificates: PRINCE 2, Agile, Waterfall, Scrum Master (PSM I and PSM II), Six Sigma

MSc: Renewable Energy, Enterprise and Management (MSc) - Newcastle University

Dec 2010 - Jan 2012

BSc: Chemical Engineering (BEng) - Aston University

Oct 2005 - Mar 2010
